

Warehouse Desk Guide

Lending Things to Angels:

Only lend things marked with an Aztec code to angels who will use them to assist with the organisation.

For an item locked outside or a vehicle, provide the corresponding key. While following the steps below, you will be alerted if the angel has not been approved to drive the vehicle. In this case, do not give them the key and seek assistance.

1. Ensure they know that they need to bring the item/s back.
2. Scan the Aztec code/s on the item/s to be lent.
3. Scan the Aztec code on the angel's badge. (Or type in "angel-[nickname]" if it's not available yet).

“pop” - removes the last item scanned from the selection.

“abort” - clears the selection list.

Marking Things as Returned

1. Scan the thing/s being returned.
2. Scan the "@lhq-returns" Aztec code.

The info Command

Tab completion is available.

To find out where something is:

1. Type the item name, press enter.
2. Type “info”, press enter.

To find out what items somebody has:

1. Scan their badge (or type “angel-[nickname]” and press enter).
2. Type “info”, press enter.

Power Tools

- Provide a charged battery with the tool.
- On return, place the battery into the charger.
